

## Final Exit

Fear Factory

Your Life no longer has any value  
Let them tell you what your own life is worth  
There is no compassion as life fades away  
This self deliverance the choice you have made

Contemplate your last breath  
As you see the face of death  
Contemplate your last breath  
Breath, slowly breath

The pain in your life I cannot perceive  
Crimes of humanity I see and believe  
Contemplate your last breath  
As you see the face of death  
Contemplate your last breath  
Breath, slowly breath  
Goodbye

Like the knife that cuts through me  
Stabbing uncertainty  
It bleeds my life I know  
Draining my heart my soul...

Contemplate your last breath  
As you see the face of death  
Contemplate your last breath  
Breath, slowly breath  
Goodbye  
Goodbye
