

# Paperdoll

## Fear Of Domination

Have a little faith in me  
At least make it easier for me  
Just for me  
From paper I'll build your carcass  
But scissors will always beat that  
How much more I must give  
To get all of you

I killed the sun  
Watched as it came down  
The light bleeds out  
Right to my feet

You are my star  
I take your light  
Torn down paperdoll  
I take your crown  
And make you bow  
Torn down paperdoll

We could be more  
I would give it all  
I turn you real  
And get my pretty new doll

Better not to reach for the sun  
It will surely burn  
Better to make you behave  
The way I meant you to do

You are my star  
I take your light  
Torn down paperdoll  
I take your crown  
And make you bow  
Torn down paperdoll

I cut you  
I love you  
I cut you  
I love you

You are my star  
I take your light  
Torn down paperdoll  
I take your crown  
And make you bow  
Torn down paperdoll  
You're mine now  
Can't sign out  
Let me see that ass of yours now  
Torn down paperdoll  
I use you  
And cut you  
Do what I ever want to  
Torn down paperdoll
