

Bleed Till Sunrise

Fearless Vampire Killers

As the track pulls up
And the train looks over the city
The glistening of those attic windows
All this dark descending
And the girl whose eyes leave me gasping
Her lips so ruby like blood

Light up my eyes
If there's something I can say or can do
To retrieve you
Please
If you're bleeding I can help stop the flow
I can save you

I can taste the absinthe
And my head dances with thoughts of redemption
The night sky is just what I need
But these stories and memories
Make it hard for my heart to remember
Should it stay beating or just bleed till sunrise

Light up my eyes
If there's something I can say or can do
Please
If you're bleeding I can stop the flow
I can save you

Don't give up cause here we stand
At the edge of our world
Don't look back

Feed my addiction with girls that tease
Flesh like pink amphetamines
This cocktail of blood fills my blackened soul
Hatred burns it swallows whole

They're coming for me, boys!

Light up my eyes
If there's something I can say or do
To retrieve you
Please
If you're bleeding I can stop the flow
I can save you

Eyes, if there's something I can say or can do
To retrieve you,
Please
If you're bleeding I can help stop the flow
I can save you
