

## Walking on Glass

### Feed Her to the Sharks

You wanna fuck the world and watch it burn  
You drank the blood of the innocent  
You wanna fuck the world and watch it burn  
You'll never destroy us and you'll never tear us down  
Don't waste your breath  
Don't waste another breath on your hollow promises  
You never gave us one fucking chance  
You left us hanging by a thread  
Now I'm living with rage, screaming with hate  
After eighteen months of hell  
You'd love to deny your faults and your crimes  
You used us and spat us out  
You wanna fuck the world and watch it burn  
You drank the blood of the innocent  
You can't destroy us and bury the past  
Bet it felt so good, like walking on glass  
Felt so good, just like walking on glass  
You're a fraud, a fake, a rat in a cage  
We've heard enough hypocrisy  
And we will never forget the lies that you fed  
Your words are like a fucking disease  
You wanna fuck the world and watch it burn  
You drank the blood of the innocent  
You can't destroy us and bury the past  
Bet it felt so good, like walking on glass  
Go fuck yourself  
You drank the blood of the innocent  
And we'll never forget  
The way you watched our world crash down  
You wanna fuck the world  
You wanna fuck the world and watch it burn
