

## High 5

Feeder

He knew the only way  
I never knew that way  
She knew the only way  
You know we're both the same

Pulling at the seams  
Staring at the scene  
It's pulling at the seams  
You know we're made the same

Here comes another day  
Get on your knees and pray  
Here comes another day  
You know we're both the same

High five

You know I never could  
Don't think she understood  
You know I never would  
You know we're both the same

He knew the only way  
I never knew that way  
She knew the only way  
You know we're both the same

High five

He knew the only way  
I never knew that way  
She knew the only way  
You know we're both the same

High five  
High five  
High five
