

What Does Your Conscience Say To You

Ferlin Husky

(What does your conscience say to you)
When you're with your somebody new and he holds you in his arms
Don't you know you're not lovin' by the rules
If you would stop and search your mind imagine what you'd find
What would your conscience say to you
Tell me do you think he'll love you and that he'll be true
If he'll take you from me he'll leave you for someone too
But let your conscience be your guide so many times I've heard
you say
What does your conscience say to you
Now you know I've always been true and I tried to do my part
There's no reason to treat me like you do
What makes you think his love will last compare your future with
your past
What does your conscience say to you
Oh tell me do you think he'll love you...
