

# You're The Happy Song I Sing

Ferlin Husky

(You're the happy song I sing)  
I walk around a hummin' the same song every day  
Folks hear me comin' a half of block away  
But I never worry about that kind of thing cause you're the happy song I sing  
I hear Mr Bluebird when he's a singing it out  
But I doubt if that bluebird's got more to sing about  
No matter the season for me it's always spring cause you're the happy song I sing  
The way that I'm feeling why shouldn't I sing  
When I got all the happiness your loving can bring  
Some people may wonder just what's a causin' to change  
This spell that I'm under has got me acting strange  
But it's just that feeling that only love can bring cause you're the happy song I sing  
Yeah you're the happy song I sing yeah you're the happy song I sing
