

Watch Out

Ferry Corsten

I can't... I can't... I can't... I can't
I can't explain the way you make me feel
The only thing I know it feels g'damn real
Making me high is what it's all about
So woman, you better watch out
You better watch out! You better watch out!

I can't explain the way you make me feel
The only thing I know it feels g'damn real
Making me high is what it's all about
So woman, you better watch out
You better watch out! You better watch out!
