

A Part of Us

Fever Ray

I dig, I plant a walnut tree
I pour a lot of water in

Staring up
Notice you're sleepwalking
Centre of attention
Effing drunk happy in the safe space

So proud to be a part of us
A chosen family
To love, to trust

Your eyes only
We know, we know
Stay till tomorrow, then you go
It's a lion's call, lockjaw
Stay early morning, we're making love

I dig, I plant a walnut tree
I pour a lot of water in

No time for
There's a change in the atmosphere
What we are
Brings the wrong kind of attention out here

So aware
What's wrong with you, the morning mist
Cold, wet air
We're having [?]

I dig, I plant a walnut tree
I pour a lot of water in
