

If Only The Moon Were Up

Field Music

If only the moon were up
Been trying to find my shoes
There's nothing to say anymore
Staying can only lose

If only my eyes looked up
I'd probably be back soon
But looking is never enough
Looking's only good for

Taking apart the dark, the talk is all gone
Taking apart the dark, the moon is up
Taking apart the dark, the talk is all gone
Taking apart the dark, the moon is up

If we wouldn't be so tough
We'd probably have more to say
But lying is never enough
That's all we're used to

I noticed you're stuck in a rut
Seems like you're taking root
But wanting to be where we are
Is never any good

Taking apart the dark, the talk is all gone
Taking apart the dark the moon is on
Taking apart the dark, the talk is all gone
Taking apart the dark the moon is on

If only the moon were up
Been trying to find my shoes
There's nothing to say anymore
Staying can only lose

If only my eyes looked up
Perhaps I could find my way
I never could see very far
Seeing's only good for

Taking apart the dark, the talk is all gone
Taking apart the dark the moon is on
Taking apart the dark, the talk is all gone
Taking apart the dark the moon is on
