

# Skulls And Flesh And More

Fields

Come and stake your claim  
Lord said to his  
Id use up all my wealth  
To compensate for health

The tunnels on the brain  
Just wont stay the same  
I withdraw from myself  
With words and little else

If I called  
The place we began  
When I call your name  
Will you stay the same

Body is at war  
Skulls and flesh and more  
Pressure take my head  
Take blood from me withdraw

Needles in my brain  
I just cant feel the same  
Id use up all my wealth  
To compensate for health

If I called  
The place we began  
When I call your name  
Will you stay the same

If I called  
The place we began  
When I call your name  
Will you stay the same

If I called  
The place we began  
When I call your name  
Will you stay the same
