

Greed

Fifteen

They say, they say, You should want to be richer than everyone
They say, they say, you should want to have more than everyone
They say, they say, you should want to be better than everyone
They they say, you're never good enough anyway

Better get down on your knees boy
Better pray to our god his name is greed
They say, they say, you should want power over everyone
They say, they say, you should want to control everyone

They say, they say, you should want to be better than everyone
They say, they say, you're never good enough anyway
Better get down on your knees boy
Better pray to our god his name is greed

I get on my knees and I thank god today, for not making me a rich man
I get on my knees and I thank god today, for not making me a politician
I get on my knees and I thank god today, cuz I'm the envy of no one
Worker amongst workers, man amongst men.
