

# I Lied

Fifth Harmony

It's crazy how that four letter word gets tossed  
And I'm guilty, said it so many times before  
But I can't front no more

You're the only one that's showing me the real  
You're the only one that's giving me these chills  
No ex in the past could open up my eyes  
Thought I found the one every time

I've said I love you, but I lied  
Cause love never got me this high  
I've said I love you, but I lied  
Cause everything's different this time, oh no  
I've said I love you, but I lied  
Cause love never got me this high

It'd be foolish if they thought they could get me back  
See, the truth is you can't lose what you never had  
And you got me so bad

You're the only one that's showing me the thrill  
You're the only one that's giving me these chills  
No ex in the past could open up my eyes  
Thought I found the one every time

I've said I love you, but I lied  
Cause love never got me this high  
I've said I love you, but I lied  
Cause everything's different this time, oh no  
I've said I love you, but I lied  
Cause love never got me this high

You got that real love  
That text in the morning, that real love  
How Mary J call it, that real love  
We got real love  
You got that real love  
That text in the morning, that real love  
How Mary J call it, that real love  
We got real love

I've said I love you, but I lied  
Cause love never got me this high  
I've said I love you, but I lied  
Cause love never got me this high  
You got my love, talking bout' real love  
(I've said I love you but I lied  
Cause love never got me this high)

Ohhh  
You got that real love  
That text in the morning, that real love  
How Mary J call it, that real love  
We got real love  
You got that real love  
That text in the morning, that real love  
How Mary J call it, that real love

We got real love
