

## Sacrifice

### Fight or Flight

Have you been confused, inside  
Been used and all together lied  
Have you (have you) been through the life of sacrifice

Have you noticed the little things  
That come right in between  
You are alone in life (you are alone)  
Are you in fear of anything  
Do you find yourself not caring?  
Are you afraid to make it right (are you afraid)

Have you been confused (confused), inside (inside)  
Been used and all together lied  
Have you (have you) been through the life of sacrifice  
And they fail to know you  
It's all you have  
You can't let go again

Do you still care to say  
What won't change yesterday?  
Have you forgotten heaven's gates?  
I know I have  
Can you not escape the bullshit people say,  
When you have no energy to hate or save your ass

Have you been confused (confused), inside (inside)  
Been used and all together lied  
Have you (have you) been through the life of sacrifice  
And they fail to know you  
It's all you have  
You can't let go again

Have you been confused, inside  
Been used and all together lied  
Have you (have you) been through the life of sacrifice

Have you been confused (confused), inside (inside)  
Been used and all together lied  
Have you (have you) been through the life of sacrifice  
And they fail to know you  
It's all you have  
You can't let go again

Have you been confused (confused), inside (inside)
