

## Break the Daylight

## Fight The Fade

We can't escape the dangers  
That our darkness holds  
These scars aren't fading  
I know you want to run

Stay  
I know you're not ok  
The pain won't go away  
We just have to break the daylight

Light 'em up, light 'em up  
Burn the ships down  
We've come to far now to turn around  
Light 'em up, light 'em up  
We're staying  
Burn them down, just burn them down

Light 'em up, light 'em up  
Light 'em up, light 'em up

We won't accept a failure  
Because it's do or die  
Death is no stranger  
But neither is the fight

Stay  
I know you're not ok  
The pain won't go away  
We just have to break the daylight

Light 'em up, light 'em up  
Burn the ships down  
We've come to far now to turn around  
Light 'em up, light 'em up  
We're staying  
Burn them down, just burn them down

It's up to you to make up your mind  
The choice is yours what will you decide  
It's up to you to make up your mind

Light 'em up, light 'em up  
Burn the ships down  
We've come to far now to turn around  
Light 'em up, light 'em up  
We're staying  
Burn them down, just burn them  
Light 'em up, light 'em up  
Burn the ships down  
We've come to far now to turn around  
Light 'em up, light 'em up  
We're staying  
Burn them down, just burn them down

Light 'em up, light 'em up  
Light 'em up, light 'em up
