

Don't Say

Fight The Fade

Don't say you love me
From a million miles away
These winds are changin'
And things will never be the same

Don't say you love me
From a million miles away
These winds are changin'
And things will never be the same

Don't say you love me
From a million miles away
These winds are changin'
Things will never be the same
Things will never be the same
Things will never be the same
