

Fall into the Sky

Fight The Fade

Do you remember when we were younger
And we had each other
Now you left me behind

And this darkness inside is pushing me off the edge

I can't help but fall into the sky
Will you be there with arms open wide?
All I want is to crawl in a corner and die
When I can't feel you inside

These days I can't sleep
(These days I can't sleep)
Tossing and turning
(Tossing and turning)
This love runs too deep
(This love runs too deep)
I need to do something
I need to do something

I can't help but fall into the sky
Will you be there with arms open wide?
All I want is to crawl in a corner and die
When I can't feel you inside

These days I can't sleep
Tossing and turning
This love runs too deep
I need to do something

I can't help but fall into the sky
Will you be there with arms open wide?
All I want is to crawl in a corner and die
When I can't feel you inside
