

# Masks

## Fight The Fade

Can you see me crawling over all the bodies  
Of the man I used to be  
Every key has been used  
Some locked in this room  
Of miles away  
From knowing the truth  
Of who I will be and how you'll see me  
When it all is stripped away

You can't see the demons I fight in my head  
Every day is a battle for me to live again

Every choice that I make I overcomplicate  
Because I can't sift through these thoughts to get to you  
What version should I be  
Do you want to see  
What voice what shape will it take to make my escape!

You can't see the demons I fight in my head  
Every day is a battle for me to live again  
You can't see the demons I fight in my head  
Every day is a battle for me to live again

I don't know which mask is me  
I don't know who's underneath  
In which grave do I reach  
To raise up my identity  
I don't know which mask is me  
I don't know who's underneath  
In which grave do I reach  
To raise up my identity  
I don't know which mask is me  
I don't know who's underneath  
In which grave do I reach  
To raise up my identity  
I don't know which mask is me  
I don't know who's underneath  
In which grave do I reach  
To raise up my identity

You can't see the demons I fight in my head  
Every day is a battle for me to live again  
You can't see the demons I fight in my head  
Every day is a battle for me to live again

I don't know which mask is me  
I don't know who's underneath  
I don't know which mask is me

My identity!
