## Fight The Fade

If you can hear me calling out  
Echoing like a whisper across the waves  
Then it isn't something you should doubt  
Cause I'm trapped with this weight again

I keep going underwater (Don't let me drown)  
I keep going underwater (When I go)  
Down down down  
Don't let me drown  
If I keep going underwater (Don't let me drown)

If you only knew how it makes me feel  
Then you'd understand why it's so hard to walk away  
But even if it's something you'll never understand  
I need to know you'll be here in the end

I keep going underwater (Don't let me drown)  
I keep going underwater (When I go)  
Down down down

Don't let me drown  
If I keep going underwater

I can't take it  
The waves aren't breaking  
I can't make it  
On my own  
I can't take it  
The waves aren't breaking  
I can't make it  
On my own

I keep going underwater  
I keep going underwater

I keep going underwater (Don't let me drown)  
I keep going underwater (When I go)  
Down down down  
Don't let me drown  
If I keep going underwater (Don't let me drown)  
I keep going underwater (Don't let me drown)  
I keep going underwater (When I go)  
Down down down  
Don't let me drown  
If I keep going underwater  
Don't let me drown
