What's with the sweat and nervous smile Looks like your pain's gonna kill us all Just like a gun don't care at all Feel's like your justice it made us fall

Speechless Jesus
One of these day's we just might need ya
One of these day's we just might need ya

What's it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending, where's your reign
Whats it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending, where's your reign

What's your face is the common comment now Revelations' making me bleed out now Wallow up in your pity party now Swallow up what little piggies shit

Speechless Jesus
One of these day's we just might need ya
One of these day's we just might need ya

What's it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending where's your reign
What's it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending where's your reign
