Dose

I believe in something else now go bother someone else stick your fingers in your book take a better second look you crook I hate it when you breach my space and I hate it when you preach your case and you should go down down save someone else.

I think I should warn you I think I should tell what you've been doing it makes you go to hell

I hate it when you preach your case it makes me want to stick my fist through your face and you should go down down save someone else.

Can your preacher bring me down? oh, thats what I thought.

I hate it when you breach my space and I hate it when you preach your case and you should go down down save someone else. Filter
