Come along take a ride 'cross the sky for an hour Leave your mind take your soul fill the hole with flowers From the lake through the trees in the streets for the powder In the creed for the freeze I gotta place this power

```
'Cuz I am a lie
```

I will lead you for awhile Take your place to place Bring you to this pyre See you face to face

Come along to this flick take your sympathy with your symphony See this dish a wonderful wish it's the perfect kiss it's the r eal thing

See the pitch it's the greatest of hits it's the missing with the wishing

At least you caught a smile when you coughed awhile when you did this kissing

```
'Cuz I am a lie
```

I will lead you for awhile Take your place to place Bring you to this pyre See you face to face

I will lead you I will lead you

See you face to face
Face to face
See you face to face
Face to face
Yeah
See you face to face
Face to face
I see you face to face
Yeah
