Self Inflicted

I wish it wasn't true I finally saw what you did I had to wrap my head around it I tried to look away It never seemed okay You better brace yourself for impact Are you listening now? Are you listening now? Are you listening now? You made me do this to you Yea! Now who's listening? That's what I thought! Yea! Now who's listening? That's what I thought! You made this! Self-inflicted! You made this! Self-inflicted! I got to let you know The voice inside me grows It's like my head right back around it It's got me thinking clear There's nothing left in here You better brace yourself for impact Are you listening now? Are you listening now? Are you listening now? You made me do this to you Yea! Now who's listening? That's what I thought! Yea! Now who's listening? That's what I thought! You made this! Self-inflicted! You made this! Self-inflicted! As I'm driving Til the wheels fall off Driving Til the heavens blow out Are you listening now? Are you listening now? Are you listening now? You made me do this to you

Yea! Now who's listening?
