

White Like That

One thing is for sure
I don't need it
makes my life a war
what a bore
don't you understand
it wasn't ever my plan?
I guess you just can't see
what you do when you blame it all on me

White like that
I'm white like that
It's all the same

Said one thing and mean another
who are you gonna lose?
who are you gonna choose?
what do you think I'm gonna do?
what are you thinking?

White like that
I'm white like that
It's all the same

Who's gonna lose?
so who's gonna lose?

They call me white trash

White like that
I'm white like that
It's all the same
white like that
I'm white like that
It's all the same game

So who's gonna lose?
who's gonna lose?
