

Murder Me

Finch

This is my last drink
I think I've had enough
Catch me as I sink
Ain't this amazing
It's pitiful to stop
It's beautiful

Oh you murder me
So save heaven for what you really need
Let's say hello to always
Always, and I know

No one shines like this
Colored fingertips
Quiet rays of light
As you bat your eyes

Oh you murder me
So save heaven for what you really need
Let's say hello to always
Always, and I know

I know

You're all you are

You're everything
We're everything
It's everything to me

Oh you murder me
So save heaven for what you really need
Let's say hello to always
Always, and I know

Let's say hello
To always and I know
