## I'll Keep Your Memory Vague

**Finger Eleven** 

This won't break your heart But I just think it could Cause I haven't tried as hard as I should To separate you from everything I do But I would never want to come between us two

I'll keep your memory vague So you won't feel bad about me I'll say the things that you said Sometimes so it reminds me

Now I'm thinking back To what I said before I hope your heart won't have to hurt anymore Cause it's really not that sad from here Because the moments I can feel you near They keep you close to me my dear And if they ever become too clear...

Now you've gone away Don't worry it's ok That you're gone away Further than yesterday But you'll never leave these scenes My mind replays

Where in the world have you gone now?
