

## Make up your own mind

Finley

Walking through the contradiction way  
In a world where for fashion your friend's gay  
You must try to be yourself  
Everyday and every night  
Live your life like a daily fight  
To get what you think is right for you  
I believe in what I said  
Can't you see it's alright?  
All around  
Nobody hears your voice  
Nobody hears you make this noise  
Make up your own mind  
All around  
No one can label you  
Nobody can judge what you do  
Make up your own mind

People could say you're a freak  
Please don't care they make you sick  
Keep on doing what you want to do  
Like your father last year said  
During the thanksgiving day:  
'Fuck' em all, don't give a shit of them'  
I believe in what I said  
Can't you see it's alright?

All around  
Nobody hears your voice  
Nobody hears you make this noise  
Make up your own mind  
All around  
No one can label you  
Nobody can judge what you do  
Make up your own mind
