I could liken you to a werewolf
The way you left me for dead
But I admit that I provided a full moon

And I could liken you to a shark
The way you bit off my head
But then again I was waving around a bleeding open wound

But you were such a super guy
'Til the second you get away from me
We're like a wishing well
And a bolt of electricity
But we can still support each other
All we gotta do is avoid each other
Nothing wrong when a song ends in a minor key
Nothing wrong when a song ends in a minor key

The lava of a volcano
Shot up hot from under the sea
One thing leads to another
And you made an island of me

And I could liken you to a chemical The way you made me compound to compound But I'm a chemical too
Inevitable you and me would mix

And I could liken you to a lot of things
But I always come around
Cause in the end I'm a sensible girl
I know the fiction of the fix

But you were such a super guy
'Til the second you get away from me
We're like a wishing well
And a bolt of electricity
But we can still support each other
All we gotta do is avoid each other
Nothing wrong when a song ends in a minor key
Nothing wrong when a song ends in a minor key
