

Dolphin's Lullaby

Firefall

Close your weary eyes and drift away, it's all right
I'll be here until the break of day brings the light
I can sing a lullaby they sang for me when I was just your size
Just a little poem with a melody to shut those sleepy eyes.

Singing dolphins over the ocean
Where it's clear and it's deep
Help the waves with your gentle motion
Rock this child to sleep.

May sailing ships and secrets fill your dreams with delight
Anything you want is yours for free for the night
I won't let no bad dreams come and bother you
Just put your trust and me
I'll be standing by to keep a watch on you
While you're away at sea.

Singing dolphins over the ocean
Where it's clear and it's deep
Help the waves with your gentle motion
Rock this child to sleep.

You got to rock this child
You got to rock this child to sleep
You got to rock-a-bye my baby
Rock-a-bye my baby, rock-a-bye.
