

# It's Not Too Late

Firefall

It's not too late  
It's never too late  
It's not too late  
It's never too late

Been up all night  
I've been wondering why  
You and I are still apart  
You're right across town  
But you're never around  
It wasn't like that at the start

Why don't you come on over like you used to do?  
What seems to be the matter? You know that I love you

Now I need you more than ever  
Come on, baby, let's get it straight  
Now you're saying maybe never

It's not too late  
It's never too late  
It's not too late  
It's never too late

You called me your baby  
You called me your man  
You told me you'd always be there  
Now I'm calling you baby  
Looking everywhere I can  
But you don't seem to be anywhere

I want to know the reason that you think we're through  
What seems to be the problem? You know that I love you

Now I need you more than ever  
Come on, baby, let's get it straight  
Now you're saying maybe never

It's not too late  
It's never too late  
It's not too late  
It's never too late

Lonely night turns into day  
Wasted time just fades away  
Now I face another day  
You've been gone too long  
Every day just feels the same  
I go out and play the game  
Tell me baby why do you hesitate?

It's not too late  
It's never too late  
It's not too late  
It's never too late

It's not too late

It's never too late  
It's not too late  
It's not too late
