

Love Nobody

Firefall

I heard a rumor from the grapevine
It came out over the teletype machine
She's been going out on me behind my back
There's been other men she's been seein'

Love nobody
Don't you love nobody
Love nobody
But me

So I took the readout over and showed her
And I asked her what this all could mean
She said I had the wrong information
She said she had done nothing obscene

Love nobody
Don't you love nobody
Love nobody
But me
But me, babe

So I let her body press up to mine

And she started nibbling in my ear
I soon forgot all about the grapevine
Too soon my worries disappeared

Love nobody
Don't you love nobody
Love nobody
But me, babe

Love nobody
You got to love nobody
Love nobody
But me
But me, babe

(Love nobody) But me, babe
(Love nobody)
(Love nobody) But me, babe
(Love nobody)

(Love nobody)
(Love nobody)
(Love nobody)
(Love nobody)

(Love nobody)
(Love nobody)
