

## Someday Soon

Firefall

Someday soon---we're gonna quit this crazy runaround  
Pack our bags and steal away  
Someday soon---we're gonna find a place and settle down  
I'll be coming home someday  
I'll be there to kiss you in the morning  
I'll be by your side each afternoon  
Late at night, our love, like rivers pouring  
---Loving you---someday soon  
Someday soon---we're gonna leave this foolish fantasy  
Find the strength to let it go  
Someday soon, you're gonna see how much you mean to me  
Even more than you could know  
Now I can see you can't hang on forever  
Even tho' you love me like you do  
---Love is all that's keeping us together  
I love you---Someday soon
