

## Sweet Ann

## Firefall

Sweet Ann, sweet Ann Jeanette  
I just can't explain what I can't forget  
Ever since the day that I met you  
Something is different somehow

Oh, sweet Ann where are you now  
I need you now

Something about you haunts me  
Like an endless song  
Whispering to me softly  
In the lonely light of dawn  
My head is in confusion  
My heart is on my sleeve

Whoa sweet Ann, too sweet to leave  
Too sweet to leave

Sweet Ann, sweet Ann Jeanette  
Something about your laughter  
Seemed to fill the air  
Echoing like an answer  
To my lonely, lonely, lonely prayer  
There's no one else I could think of  
Nobody else I'd choose

Whoa, sweet Ann, too sweet to lose  
Too sweet to lose

Are you alone tonight  
Sittin' at home tonight  
In some far city

You could be here with me  
We'd be making history  
You're so pretty  
Oh, what a pity

Whoa, Ann, sweet Ann Jeanette  
I just can't explain what it is that I can't forget  
But ever since the day that I met you  
Something is different somehow

Whoa, sweet Ann come to me now  
I need you now

Ooh, Ann, sweet Ann Jeanette  
Ooh, sweet Ann, sweet Ann Jeanette  
Sweet Ann Jeanette  
Sweet Ann Jeanette
