

Easy to Break

Fireflight

I've got a hole cut through my heart
It's broken in a million parts
But you see everything
And you don't run from me
You're shatterproof
And when I have to cry
No I don't have to hide
When I'm with you

You're not afraid to hold me
When I fall apart all over the place
You're not ashamed to love me
Even though I'm easy to break
I'm easy to break
I'm easy to break

You find me when I'm in the dark
When I fall it's into your arms
But you see everything
And you don't run from me
You're shatterproof
And when I have to cry
No I don't have to hide
When I'm with you

You're not afraid to hold me
When I fall apart all over the place
You're not ashamed to love me
Even though I'm easy to break
I'm easy to break
I'm easy to break

2x

You, you, uuh (you, you)

You're not afraid to hold me
When I fall apart all over the place
You're not ashamed to love me
Even though I'm easy to break
3x I'm easy to break

You're not afraid to hold me
