

## In Place

Fireside

I've got to control my ups and downs  
I've got to control your perfect lies  
You say that my downs are on the outside  
Forced to my skin like clothes  
Try to take your love  
And throw it back in place  
Try to take your love  
And throw it back in place  
But you are so strong when it all comes down  
You dress up shut and throw up

But I keep myself in my state  
Yeah I keep myself in my state  
Try to take your love  
And throw it back in place  
Try to take your love  
And throw it back in place  
She said I'm sorry that you lost your job  
But I've been trying this for far too long now  
I've been trying this for far too long now
