

# A Little Revolution

Firewater

Got no job,  
Got no cash,  
Going nowhere  
And going fast.  
This whole deal  
It's just no good  
Gonna get out  
While the getting's good  
Stuck in the tunnel and I'm looking for the light  
It seems like everybody's itching for a fight  
Well we don't wanna cause no fuss  
Yeah, we just want a little revolution  
We don't wanna spill no blood  
Yeah, we just need a little revolution

Got no chance  
Got no fun  
Not so cool  
When you're young  
Time is money  
And money's power  
They got theirs  
What about ours?  
See the riots on the TV every day  
Sometimes it's looking like there ain't another day  
Well we don't wanna cause no fuss  
Yeah, we just want a little revolution  
We don't wanna spill no blood  
Yeah, we just need a little revolution  
We don't wanna wreck this town  
Yeah, we just want a little revolution  
We don't wanna burn it down  
Yeah, we just need a little revolution

You'll never know what it's like standing in my shoes  
But if you corner me, you're gonna find a fighter  
Your cameras gazing down from cold surveillance towers  
But in our darkest hours, it's only getting brighter  
Fires burning higher...

Well we don't wanna cause no fuss  
Yeah, we just want a little revolution  
We don't wanna spill no blood  
Yeah, we just need a little revolution  
We don't wanna wreck this town  
Yeah, we just want a little revolution  
We don't wanna burn it down  
Yeah, we just need a little revolution
