

Come Around

Fireworks

What's your name you old ball and chain?
You won't roll free tied up this way
It was a good idea when you needed a home
But your best days were spent on your own

Please don't be there the next time that they fall
If anything show up late to let them know
You never would've been there at all
When you're happy with yourself you'll never get much done
I'm not saying live for the downside
Just live your own life

Come around
Just to feel up when you feel down
Come around
I hope that you come around, come around

Well spite isn't quite revenge and childhood friends
Are nothing but dead ends

When you're happy with yourself you'll never get much done
I'm not saying live for the downside
Just live your own life

Come around
Just to feel up when you feel down
Come around
I hope that you come around, come around

Live your own life
Just live, live your own life
Live your own life
Just live, live your own life

We could be our own Messiahs
And walk on frozen lakes
Our stomachs could turn wine to water
When you lose your saving grace
Put your weight on that frozen lake
Up from the downside with you

Come around
Just to feel up when you feel down
Come around
I hope that you (you)

Come around
Just to feel up when you feel down
Come around
I hope that you come around, come around
You come around
