

## Still In Flames

Fischer-Z

I've seen your love  
I've seen your love before  
But it doesn't mean much  
It's not worth fighting for  
I've felt you touch  
And I've felt those hands  
But it doesn't mean much  
I think you understand  
And life goes on  
I'm still in flames  
I'm still in flames from you  
And though you soaked me through  
I'm still burning  
I've been confused  
I'll be confused again  
But it doesn't mean much  
It's only now and then  
And life goes on  
I'm still in flames  
I'm still in flames from you  
And though you soaked me through  
I'm still burning  
I've been waiting all my life for the truth to show  
I've been waiting all my life for the truth...  
I know...  
I'm still in flames  
I'm still in flames  
I'm still in flames from you  
And though you soaked me through  
I'm still burning
