

Everyday Sunshine

Fishbone

I wish everyday the sun would shine
Take me to another place in my mind

Where everything is beautiful

And no wants or needs
Nor sign of greed
Could rule our soul

How I wish the sun would shine
How I wish the sun would shine

If we could fly away on wings
To a place where all could be true

And the skies were blue
And love was true
And me and you

How I wish the sun would shine
How I wish the sun would shine
