

## Mighty Long Way

Fishbone

Said I'm shakin' in my shoes sometimes  
And all alone I get the blues sometimes  
And I'm far away from home, it seems so far, so far away  
Many moons and many days  
You know many things are on my mind  
I search and search for answers I can't find  
Then my people I will seek  
They listen when I speak  
Believe me when I say  
Me and my friends go a mighty long way  
Yea, yea  
There's nothing that can make this bond to break  
And if it comes along it must be strong  
Believe me when I say  
Me and my friends go a mighty long way  
Well I look into the cloudy sky  
And cleanse my soul as the heavens cry  
My life like a rolling stone  
Up and down the hills  
It breaks my ass like a window sill  
And if I had to do it all by myself  
There be a threat to my mental health  
But there's no need to run and hide  
When folks are by my side  
Believe me when I say  
Me and my friends go a mighty long way  
Yea, yea  
Yea, yea  
There's nothing that could make this bond to break  
And don't even try unless you're ready to die  
Believe me when I say  
Me and my friends go a mighty long way  
Believe me when I say  
We go a mighty long way
