Party At Ground Zero

Fishbone

Party at ground zero
Every movie starring you
And the world will turn to flowing
Pink vapor stew

Please do not fear 'cause Fishbone is here to say Just have a good time, the stop sign is far away The toilet has flushed and green lights are a ghost And drop drills will be extinct

Speed racer cloud has come They know not what they've done Sin has just won The planet is a crumb

Johnny, go get your gun
For the commies are in our hemisphere today
Ivan, go fly your MIG
For the Yankee imperialists have come to play

Johnny goes to Sally's house to kiss her goodbye But Daddy says to spend the night They make love till the early morning light For tomorrow Johnny goes to fight

Johnny, Ivan, Ian
Everybody come along
For our nations need new heroes
Time to sing a new war song

Party at ground zero
Every movie starring you
And the world will turn to flowing
Pink vapor stew

Please do not fear 'cause Fishbone is here to say Just have a good time, the stop sign is far away The toilet has flushed and green lights are a ghost And drop drills will be extinct

Speed racer cloud has come They know not what they've done Sin has just won The planet is a crumb

Party at ground zero
Every movie starring you
And the world will turn to flowing
Pink vapor stew
