

# We Just Lose Our Minds

Fishbone

Got those aches and pains in your behind  
But it's in your head where you will find  
You must strap on your safety belt  
And shield your fender  
In case they try to rear your end  
You'll get a foot in the ass every time  
All I know is we just lose our minds  
Neck to the deck and back to the wall  
But don't fall on your face if you should fall  
To see what's coming, get to your feet fast  
Try to fall on your ass  
But they force you to the ground sometimes  
All I know is we just lose our minds

Feel the tic and tac around your brain  
When did it get hit by that train  
Wrecked in the socket by Davey Crockett  
Then they turned around and dipped in my pocket  
Makes me want to scream 'till I'm blue and blind  
All I know is we just lose our minds  
This laundramat don't launder cash  
We just lose our minds  
This laundramat ain't made for that  
We just lose our minds  
So here's some bleach for that  
Oh Lord, you're bound to get taught  
All the reasons why  
All I know is we just lose our minds

[CHORUS]

A promise of flight to excite  
We're soaring high with the rest  
You sewed my wings on just right  
Just to fly me over the cuckoo's nest  
[X2]

Chains the pain brings things that drive me ape-dick  
We just lose our minds  
Like a beast by a beast, see what He created  
We just lose lose our minds  
You threw a spank on my spine  
And my tongue you grind  
We just lose our minds  
Bent my design with a piece of pine  
All I know is we just lose our minds  
Oh, stuck with a stick like a brick on the tip of my noggin  
We just lose our minds  
Split my wits and they're swinging like they was loggin  
We just lose our minds  
The red from my head, telling me it's time just to go to bed  
We just lose our minds  
I'm losing my mind, this is what it said  
All I know is we just lose our minds

[CHORUS X2]

This beast is a cannibal, other animals help it to survive

He'll eat you up and spit you out, just to keep you alive  
But just like the snake that ate from his tail to his face  
And he sealed his own fate  
This is your time to revive  
All I know is we just lose our minds  
[X6]
