

Be Here

Fisher

I am always trying to keep my ass in line
In my mind I play with all I see
-sleeping with the world all the time
-in my mind

But I'd never stray for a minute
That shit's not real

But if I fall apart
You will be here for me
And if life breaks my heart
You will be here for me
Be here for me now

You should always know
I'll never give up fighting for this life
For our life

I am here for good
I could never leave
All your dreams are my dreams

Don't ever think for a minute
I'd let you go

And if life breaks your heart
I will be here for you
And if you fall apart
I will be here for you
Be here for you now

You keep me safe
I keep you sane

And if life breaks your heart
I will be here for you
And if I fall apart
You will be here for me
For me now
