

## Different Kind of Wonderful

Fisher

We never play  
Kissy face in front of strangers  
And we never run to each other in slow motion  
No rolling around on the shore with sand between our toes  
But I guess this is

A different kind of wonderful  
-we're in love in the real world  
It's not what I thought it would be but  
I can't let this go  
A different kind of happiness  
-doesn't get more real than this  
It's not what they said it would be but  
I can't let this go

I didn't see  
Anything in you when we first met  
-when I believed I would fall in love at first sight  
Night after night we bared our souls over coffee  
Now I know I love you

A different kind of wonderful  
-we're in love in the real world  
It's not what I thought it would be but  
I can't let this go  
A different kind of blissfulness  
-we can't get more real than this  
It's not what they said it would be but  
I can't let it go

I never saw the fireworks  
-the stars didn't fall from the sky  
But this is more beautiful than a quick flash  
I never saw a rainbow  
-the stars didn't fall from the sky  
But this is more meaningful than a quick flash
