

# Hello It's Me

Fisher

One more girl on the top of the Billboard  
One more girl jumping in with the big boys  
One more year and I'm still a no one  
Waiting for my day in the sun

Chorus:

Hello, it's me - the girl you had to have  
oh well...  
Hello, it's me - the girl you had to have  
Number twelve - remember me?

You filled me with Great Expectations  
just to hide me in your basement  
Did you get from me what you wanted...huh?  
Did you lose my telephone number?

Hello, it's me - the girl you had to have  
oh well...  
Hello, it's me - the girl you had to have  
Number twelve - remember me?

Just ask yourself, "Am I neglecting someone?"

Hello, it's me - the girl you had to have  
oh well...  
Hello, it's me - the girl you had to have  
Number twelve - remember me?
