

## Ordinary Moment

Fisher

All I want  
Is an ordinary moment here with you  
-no distractions  
Tell the world  
That you're busy doing nothing  
Cancel everything - let it go  
Hey, do we know what really matters here?

We've been working so much  
-we're forgetting to touch  
What have we become?  
Do you know that it's a crime  
To never find the time to love

Meet me in the kitchen at the table  
-I just want to be alone with you  
Stare into the eyes I've been missing  
Don't say anything -you don't need to  
I love you

We've been working too much  
And forgetting to touch  
Is what we're guilty of  
But you know the greatest crime  
Is that we never find the time to love

Hey, you're the only thing that matters here
