

## Gimme the Pain

Fit For Rivals

I wanna know the in's and the outs of your dark side.  
Like a cigarette burning on the skin of your inner thigh.  
I just wanna feel like you and I are one.  
So let it go.

You got a heart like a stone baby it's easy to see.  
I said just give me an ounce but there was nothing to squeeze.  
I like when you bite but it hurts when it bleeds.  
So come on baby, let's get dirty, give it to me.

I wanna trace your flesh all the way till I'm inside.  
There is a flounce in my heart in my blood that I can't hide.  
I just wanna feel like you and I are one.  
Just let me know.

You got a heart like a stone baby it's easy to see.  
I said just give me an ounce but there was nothing to squeeze.  
I like when you bite but it hurts when it bleeds.  
So come on baby, let's get dirty, give it to me.  
I know that look when I see it in your eyes.  
The lights are on but there is no one inside.  
It seems like every time we touch I break like a wave.  
So come on baby, let's get dirty, give me the pain.
