

New love, new beginning

Look how it just begun
Starting a new love, here I come
I'm heading for a good time, baby
You are the one
I want you to know this
So now we gotta get it down
Do it right until anew has started
Your touch has got me spinning round
And I feel it's time to say out loud

(You know it)
(I know you want it, baby)
(You need it) yeah, you do
(Just try to understand) understand me
(I love it)
(I know you love feeling it, too)
You're into me
Don't you know I'm into you

(Surely)
(You know it's about time)
(To make up your mind)
(And just start love over) over
(Surely)
(You can tell it's real) tell it's real, baby
(That's how I feel) ooh
(That we should be together)

Now that love as one
Happiness has overcome me
The feelings only makes me crazy
You are the one
I think you should know this
I know our love's built on solid ground
This is it, our love have just been found
As we take it to another level
I'm feeling hints of guilt or doubt

(You know it) hey baby
(I know you feel it, baby)
(You like it) yeah, you do
(I gotta make you feel good)
(You feel it)
(You feel it and it makes me love you)
(We got it)
Don't it make you feel good, yeah

(Surely)
(You know it's about time)
(O make up your mind) surely
(And just start love over) start love
(Surely)
(You can tell it's real) tell it's real, baby
(That's how I feel) feel it in my soul
(That we should be together)

(You know it) yes you do
(I know you want it, baby) baby
(You need it) you need me
(Just try to understand)
(I love it) I know
(I know you love feeling it, too) yeah you do

(Surely) you know
(You know it's about time) time, baby
(To make up your mind) come on, make up your mind
(And just start love over) start love
(Surely)
(You can tell it's real) tell it's real, baby
(That's how I feel) show me how you feel
(That we should be together)

(Surely) surely
(You know it's about time) it's about that time, baby
(To make up your mind) come on, make up your mind
(And just start love over) over
(Surely)
(You can tell it's real) tell it's real, baby
(That's how I feel) feel it in my soul
(That we should be together)
(Surely)
