

You Should Have Waited

Five Star

Days went rolling by
All those times I thought you were mine
All those times I dreamt you were here with me, yeah
But you were out on the town
Having fun with whomever you see
When all those times I just needed you here with me
I guess you should know

You should have waited, yeah
Waited for my love
Waited for it, honey
But now it's gone
You should have waited
Waited for my love
Waited for it, honey
But now it's gone
You should have waited

Sometimes I'd think about you
How you were doing
And how you were living
Things just flew through my mind all the time, yeah
I couldn't give up on how I was feeling
I loved you so deeply
You were a part of my life
But you wanted to go
I guess that you should know

You should have waited, yeah
Waited for my love
Waited for it, honey
But now it's gone
You should have waited
Waited for my love
Waited for it, honey
But now it's gone
You should have waited, yeah
Waited for my love
Waited for it, honey
But now it's gone
You should have waited

You should have waited, yeah
Waited for my love
Waited for it, honey
But now it's gone
You should have waited
Waited for my love
Waited for it, honey
But now it's gone
