

If Ya Gettin' Down

Five

If ya getting down baby
I want it now baby
Come and get it on baby
I want it now baby

I wanna take a little time
to refresh your mind
Coz the boyz are back in town, with a
diffrent kinda funk
Who's got the funk?
We got da funk - right!
Everybody wanna boogie down tonight

Now throw your hand up in the sky
Move'em from side to side
I got what it takes
The beat that brace the funky bass I'll
give your body crazy shakes (UHHHHHH!)

Wiggi, wiggi, I'm gettin jiggi, open up the
door, I got the key to your city
You're looking kinda pretty
Dance 'til you drop and it don't stop until
it goes pop

Dance how you wanna dance

Let's all get down while we got da chance
I've still got 12 seconds on the clock,
that's mine
And I ain't gonna stop 'til the sun go shine

Line after line
I flow like rhyme after rhyme
Just like time after time

Keep it up 'til you feel the heat
And get down once you feel the beat (UHHHHHH!)

There ain't no problems that we can't fix
Cos we can do it in the mix
Noe if your man gives you trouble
We'll be there on the double
Guaranteed we'll be hittin' for six
(Come on)

If ya getting down baby
I want it now baby
Come and get it on baby
I want it not baby
